The Good, the Bad and the Ancient Mattering Spiritualities America's Healthcare Transformation Sue Matheson Silvia Battista Robert A. Phillips

The Good, the Bad and the Ancient Mattering Spiritualities America's Healthcare Transformation *Sue Matheson Silvia Battista Robert A. Phillips*

although americans are no longer compelled to learn greek and latin classical ideals remain embedded in american law and politics philosophy oratory history and especially popular culture in the western genre many film and television directors such as john ford raoul walsh howard hawks anthony mann and sam peckinpah have drawn inspiration from antiquity and the classical values and influences in their work have shaped our conceptions of the west for years this thought provoking first of its kind collection of essays celebrates affirms and critiques the west's relationship with the classical world explored are films like cheyenne autumn the wild bunch the track of the cat trooper hook the furies heaven's gate and slow west as well as serials like gunsmoke and lonesome dove

mattering spiritualities brings together an array of international scholars and practitioners to explore spirituality in embodiment through the lens of performance performative writing and performance studies the book concerns spirituality and takes the body as the site of whatever it is we call spirituality the methodological assumption is that the opposition of body and spirit is a false binary that calls for re examination and revision it stems from the argument that people can deliberately shift their boundaries of perception and knowing through practice technologies and performative techniques that can alter the way in which they perceive the ecologies in which they are embedded this approach understands that careful attention to which bodies are performing in any given scenario is crucial as is a sensitivity to the ramifications of any body's race gender class and biological ability performance can therefore be regarded as anything through which individuals and collectives experiment with bodies as technologies each chapter engages with such experiments to explore how bodies experience and relate to other bodies human and other than human but also how by mobilizing bodies and changing relationships between them practitioners can transform people spaces and places objects ecologies large and small and shift the borders of the known such experiments can also reveal intersectional dynamics within given social political and biological borders offering new perspectives and angles of analysis this collection intends to serve transdisciplinary studies and to support varied learning and teaching environments for undergraduate postgraduate and phd students

a revolution in american medicine is in full swing with the race from fee for service to

fee for value at the front line in an epic battle that will transform healthcare delivery for decades to come in America's healthcare transformation. Eminent physician leader Robert A. Phillips brings together key thought leaders and trail-blazing practitioners who provide a wide-ranging exploration of the strategies, innovations, and paradigm shifts that are driving this healthcare transformation. The contributors offer a panoramic look at the dramatic changes happening in the field of medicine, changes that put the patient at the heart of the process. Among other subjects, the essays evaluate innovative high-quality and low-cost care delivery solutions from around the United States and abroad. They describe fundamental approaches to measuring the safety of care and the impact that guidelines have on improving quality of care and outcomes, and make a strong case that insurance reform will fundamentally and irreversibly drive delivery reform. In addition, America's healthcare transformation reviews the role of health information technology in creating safer healthcare, provides a primer on the development of a culture of safety, and highlights groundbreaking new ways to train providers in patient safety and quality. Finally, the book looks at reports from Stanford Health Care and Houston Methodist, which outline how successful behaviorally based strategies anchored in values can energize and empower employees to deliver a superior patient experience. Drawing on the wisdom and vision of today's leading healthcare innovators, America's healthcare transformation provides a roadmap to the future of American healthcare. This book is essential reading for all health care providers, health care administrators, and health policy professionals, and it will be an invaluable resource in the effort to improve the practice of medicine and the delivery of healthcare in our communities and nation.

Eventually, **Cowboy Ethics** will completely discover a further experience and expertise by spending more cash. Still, when? Pull off, you understand that you require to get those all needs taking into consideration having significantly cash? Why don't you attempt to get something basic in the beginning? That's something that will guide you to understand even more **Cowboy Ethics** more or less the globe, experience, some places, in
